My Dream Job

I want to be a doctor when I grow up. I think this job is important and meaningful.

If I become a doctor, I will help and take care of sick people. I like reading about doctors in my spare time.

Doctors need to be caring and patient. They need to finish medical school after the university so that they can gain knowledge and learn more about medicine. They need to be patient when they help sick people.

I think this job is suitable for me because I am a hard-working person. I hope I can be a good doctor after I finish my studies.
