

My School Life

Hi! I am Natalie. I study in Tai Po Government Primary School. I am in P.5.

Each day we have nine lessons. I study Chinese, English, Maths, General Studies, and so on and my favourite subject is General Studies because I can learn more about the world. I like my teachers because they are nice and kind. I like my classmates too as they are helpful and friendly.

I play badminton, rope-skipping and basketball in PE lessons. We also learn many skills like teamwork and focus. My school offers many extra-curricular activities such as Choir and Music Club. I am in Choir this school year. I enjoy singing with my schoolmates.

My school has plenty of facilities. It has three small playgrounds, two music rooms, a big art room, and so on. I like playing interactive games on the smartboard. It is fun.

I like my school life because I can play with my friends and learn new things every day. I feel lucky and happy to study at my school.
